

Since I have signed up for the do not call list, my phone has finally stopped ringing during dinner, diaper changes, and every other in oportune time. It has been a blessing not to have telemarketers constantly calling. Prior to signing up we were receiving 3-4 calls a night on average from telemarketers. If I'm interested in buying something I don't currently have, I will look through the pile of junk mail that I receive every day in my mailbox , the yellow pages or do some research on it. I do not need telemarketers to be calling that often. Please do not reverse the do not call list. It is very intrusive to have telemarketers calling that much!
